Right to Work: Settled Status (Indefinite Right to Work in the UK)

Professional Summary

Motivated Full Stack Developer with hands-on experience building dynamic, responsive, and user-friendly web applications. Proficient in HTML, CSS, JavaScript, React, Node.js, PHP, and SQL, with practical project delivery through a Level 5 Full Stack Development Bootcamp and a coding traineeship. Equipped with strong problem-solving skills, technical expertise, and a passion for development.

Technical Skills

- **Languages:** HTML5, CSS3, JavaScript, PHP, Python
- **Frameworks & Libraries:** React, Node.js, jQuery, Bootstrap
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Tools:** Git, GitHub, Command Line, Tableau, Power Apps
- **Other:** RESTful APIs, Excel (VBA, Macros, Pivot Tables), UiPath (RPA)

Development Projects

- **Face Detection App**
 - Built a fully responsive web application using React, Node.js, Express, and PostgreSQL.
 - Integrated an Image Recognition API to detect faces in image URLs.
 - Developed secure user authentication (registration/sign-in).
- **Company Directory App**
 - Created a mobile-first personnel management system using HTML, CSS, MySQL, and PHP.
 - Prepared a detailed user requirements document to ensure robust, error-free functionality.
- **Gazetteer App**
 - Built a map-based app with third-party APIs (Geonames, OpenWeather).

- Utilized HTML, CSS, JavaScript, jQuery, and PHP to ensure mobile-first design and functionality.
- **Recipe App**
 - Developed a recipe management app using Node.js, Express, React, and MongoDB.
 - Allowed users to add, edit, and delete personal recipes.
 - Implemented user authentication for secure access.
- **Restaurant Menu**
 - React Native app that shows restaurant menu.

Professional Experience

NMUK Sunderland (Nov 2005 – Present)

Manufacturing Staff

- Managed inventory, prepared production materials, and ensured workplace safety.
- Optimized processes through data tracking and collaboration with supervisors.

Dominex, Poland (May 2001 – Oct 2005)

Logistics Team Leader

- Supervised daily warehouse operations, ensuring accurate inbound/outbound workflows.
- Trained employees, optimized team efficiency, and managed customer relationships.

Education

- **Level 5 Full Stack Development Bootcamp (2024)**
- **Coding Traineeship - IT Career Switch (1-Year Program 2023 - 2024)**
- **BSc Civil Engineering - Poznan University of Technology, Poland (2000 - 2005)**
